Your goal in life is to be successful. And if you had a crystal ball to look into your future, you would predict that you will want to be able to fulfil the income and expenses of yourself and your family. And you are already tracking your income and expenses in order to pay bills on time without going into debt. But there are many changes that happen in life that are uncontrollable. Like the loss of a job, a major illness in the family or unexpected and intense expenses. We all know, that unexpected

changes can come up. A job loss, illness in the family or intense expenses. And sometimes, we are not able to control all the changes in life that can happen. Maybe there is a significant loss of income in your family and you are not sure how you will pay your bills, unless you get the help that you need. Or maybe the unexpected loss of a job has left you with a huge outstanding debt and you are really struggling to get out of the hole that you are in. If this sounds familiar to you, this is why we need to work on Budgeting. Budgeting is the process of tracking and managing your income and expenses. It is like being able to keep a crystal ball of your income and expenses to make sure you have enough money to cover your debts. Our application

allows you to keep a crystal ball of your income and expenses in order to predict what will happen in the future. We have designed a tool that will help you to maximise your interest income and to minimise your credit card interest and your mortgage interest. We are going to show you how you can reduce your debt and help you to start saving. If you are concerned about your financial future and the future of your family, we have a solution for you. You are already living a frugal lifestyle and we can help you to get into a sound savings plan. Our BudgetSwift application is designed to allow you to make multiple predictions. You will be able to look into your crystal ball into your financial future. BudgetSwift allows you to predict your

monthly income and your monthly expenses. This allows you to compare your predictions with reality and help you to minimise any differences. And we are going to teach you how to minimise your credit card interest and how to minimise your mortgage interest. You will be able to see what would happen if the whole family gets a pay rise of 20% or if your salary drops by 20%. BudgetSwift will allow you

BudgetSwift Helps You One of the reasons
that BudgetSwift was so well received is
because it is so simple. At a glance, a user can
view the current amount owed to Visa,
MasterCard, Amex, Maestro and China Union

Pay. These are the accounts that BudgetSwift interacts with on a daily basis and can be accessed by simply making the payment. The rate of interest received on your finances (debt or savings) is also displayed at the same time, which reduces the likelihood of you being unintentionally late on a payment or spending money that you don't have. For every cash transaction, BudgetSwift automatically pulls the latest balances from the banks (for credit cards) and checks if there are any new transactions for the past month. If a new transaction has been made, then an email is sent to you letting you know, and you can add the transaction to the application and begin the process of reducing your debt with a few simple clicks. for BudgetSwift Been using this for almost a

year now.. its a great tool for tracking your household income and expenses on your smart phone.. a little more features would be helpful but other than that, we've been very pleased with it! I'd highly suggest this app. It is absolutely AMAZING! I use it to track all of my monthly expenses, keep track of my budget, and I actually use it to help my husband and I budget for our wedding (which is coming up in less than 10 months!). It has so many great features like showing you how much you actually have in the bank, the ability to see your balance history, and setting up defaults for things like overspending at the grocery store. I can't recommend this app enough to anyone looking to get started with budgeting! I love this app and use it multiple

times a week to manage my budget. It's great to be able to monitor your spending as you go along. I've tried other apps, but this is by far the best. I've
