1. Field of the Invention The present invention relates generally to a digital recording and/or reproducing apparatus and, more particularly, to a digital recording and/or reproducing apparatus for recording and reproducing information by use of a disk.

2. Description of the Related Art Examples of a digital recording and/or reproducing apparatus for recording digital signals on a disk in a state of being housed in a single unit include a magnetic disk apparatus as a typical one. The magnetic disk apparatus is equipped with a carriage that carries a magnetic head at a tip end thereof for recording and reproducing information signals on and from a magnetic disk. The magnetic disk apparatus has the magnetic head parked (carried) for an extended period of time or is inoperative during the parking time. Therefore, a drive mechanism for reciprocating the carriage has been employed for the parking time. A parking time (time for carrying out the parking operation) of the magnetic head, in many cases, is sufficiently long to break the magnetic head. This is not preferable in view of reliability. If a magnetic head having a

very high reliability is employed for a case, there will be the necessity of the magnetic head being disposed in a wide range of its range of movement. This makes it difficult to obtain a sufficient design margin of a drive mechanism.

Receivership A receivership is a legal proceeding in which a court of a state or province (receivership of person) or the United States (receivership of property) appoints an individual or organization to manage or conduct the affairs of a corporation in default or bankruptcy. This is usually done to protect investors in the corporation and prevent complete collapse of the company. The receiver may take over day-to-day operations of the company as well as any assets of the company, including subsidiaries, or it may just take over the management or operations of the company's property. It also allows the court to appoint a manager to act for the company in the interim between the end of the bankruptcy proceedings, and an orderly sale or liquidation of the company's

Computer Bamboozle: Understanding the Wikipedia Plot. In a similar vein is the case of Wikipedia, which, in its structure, mirrors much of the computer architecture of the early 1990s;. The web as we know it today is but a shadow of the back-end web described in this book. By the.CALGARY — A lawyer and journalist was found guilty of a domestic violence charge on Wednesday but will likely not spend any time in prison because of a novel way the system worked. Matthew Fraser was convicted of assault by striking, for punching his common-law wife Tracy McLean in the face in a downtown Calgary hotel in October 2012. The 50-year-old was on trial in Calgary Court of Queen’s Bench for an incident in which both parties were found guilty of assault. Fraser testified in his defence. “It was my intention to be physical with Mrs. McLean,” Fraser told the court. McLean, who put forth similar evidence, testified that she and her husband had been involved in “separation proceedings” for about seven months when the incident occurred. She said she had applied for a domestic violence

order but her husband had initially resisted entering into the legal proceedings. “It came to a head on Oct. 3, 2012,” said McLean, explaining that she had hit her husband with a light-weighted umbrella and put him in the hospital. “He thought I was going to kill him,” she said. Fraser’s lawyer, Scot Wortley, asked McLean about the character of her husband, which she said was very different from his own. “The gist of the case was the court was faced with a husband who seems to have done and the court was faced with a wife who seems to have hit him,” said McLean, recounting her actions on the night in question. “The court found I hit him,” said McLean. “He hit me.” Fraser was found guilty and, after deliberating for less than an hour, sentenced to six months in a Calgary halfway house. A three-year domestic violence prevention order also went into effect, meaning he can’t be in any household where he or his wife resides. In a statement outside the courtroom, McLean — who’
