I played Skyrim much more than Oblivion and I got into the RPG genre. I like that open world environments have much more possibilities than

my usual fantasy worlds. On that note, I think the Elder Scrolls series captures an incredible fantasy world. I like also how it presents vast and open worlds and complex dungeons. I appreciate that The Elder Scrolls games are developed by Bethesda Softworks. REVIEWER:I actually have played The Elder Scrolls games a lot so I know they are great because I really like them. I really like how The Elder Scrolls games have 2D and 3D environments. The Elder Scrolls series has a lot of great features. I especially like how the atmosphere of The Elder Scrolls games is like the open world of Skyrim, and also how the world of Skyrim is very vast and open. There are many quests and different factions in Skyrim. I am usually into the action RPG genre and The Elder Scrolls games are also action RPG's. I also like how the combat system of Skyrim is really great. I also like how The Elder Scrolls series has a lot of elements of classical RPG games like Dragon Quest, Final Fantasy, and others. I think The Elder Scrolls games is more like Final Fantasy's style of battle. The Elder Scrolls series is really cool. REVIEWER:The Elder Scrolls series was not only a new fantasy RPG at the time, but it was also the first fantasy RPG to really capture the spirit of the open-world games like The Legend of Zelda series. In addition to that, The Elder Scrolls games did very well in terms of gameplay bff6bb2d33
