I do not mean that it was physically messy, but I mean an unseen presence. Specifically, I have been fumigated by death! I found a dead insect, a maggot, in my usual spot in the basement, which I discovered when I found a dead spider there last week. That was a bad one, I swear. I had already looked this week, and I had seen at least one of these, before. But it wasn't until I was cleaning the table this morning that I noticed another dead insect, a small roly poly in a bottle, on my table. I don't want to speculate on its cause or
