Heroic Adventures V2: An Action-RPG Classic Heroes of Might and Magic 2: The Fantasy Original Game Collection: Complete Edition HL. Although it's been a few days now since Android KitKat was announced, many of its new features and interface changes have yet to be seen. In fact, until recently, the only confirmed features of the next version of Android were seen in a handful of leaked screenshots, videos, and full live streams. For better or worse, now we have a lot more to go on. Real-time leaks are slowly growing into a flock of birds and a bunch of leaked screenshots, videos, and even hands-on videos of the new KitKat version. Here's what we know so far... Galaxy S4 and Nexus 4 get KitKat update Samsung's Galaxy S4 and Google's Nexus 4 are expected to receive the next major update to Android, as early as next week. CNET was the first to confirm that the two smartphones will receive the latest update. Besides a slew of under-the-hood improvements, KitKat will also bring enhanced social features to both phones. Facebook messages will be able to be viewed from the lock screen and conversations will also be able to be sent from a one-button shortcut in the status bar. The update will be rolled out to both phones as early as next week, according to CNET. Performance optimization and boot time speeding up A new Android 4.4.4 beta (Build KTU84P) was released on March 17. This beta is still in testing and, as such, it's only available for those with Galaxy S4, Nexus 4, and Nexus 7 2013 models. But that doesn't mean the information gleaned from the beta isn't useful. Among other things, the new beta includes a few optimizations that will undoubtedly speed up performance, improve battery life, and/or fix minor bugs. According to a tipster, the new update will also lead to faster booting. New features CNet has reported that notifications will be one of the most pronounced new features of KitKat. The new Android versions will bring notifications to smartphones by giving users the ability to reply to messages, notifications, and other calls, from the lock screen. Voice search in the Messaging app and the Camera app will also be coming to KitKat. Sony Google Play
